One day me and William, Jack and Jakom was at the beach with our bikes and bags and food and we was swimming for about 2h and then I saw someone taking all our stuff. So we chase them but they was too fast because they was also on our bike. So we rang the coppers. when they took off so we was waiting for about an hour when they came along and we was giving them all the details. Than a big massive wind came along and blew all my money out and than they said where you got all of that money from. and I said out of my key card. and they said that's a lot of money to have in your key card. I said are you accusing me for stealing because I'm black. and he said no. I said it sound like it all right. then he said you can come with me down town if you want to be smart. He try to grab me and then I run away with my mates.

So there I was running trying to not get caught. and then a massive wind was blowing towards me. It was slowing me down but I was running as fast as I can and one of my mates got caught but I ran back and gave him a hook right in the jaw and canecect him. As we was running we was still was looking for my bike, and bags but we still couldn't find them but than I ran into the coppers that were chasing us. One had an ice pack on he's jaw he grabbed me and then I slipt out off it and stepped the other way and ran away and hid in the river and waited till they went passed. Then I jumped out and was waiting till I got dry and went down to the shop and got some hot chips and fish with gravy.

So we ate the food and then it was getting cold because the wind was getting heavy so I went in to the shop and got some jumpers and trousers for us. So we went to there hang and to the skate park and we searched

every were for them but I still couldn't find them. It was getting dark we couldn't go home because the police was still looking for us. so we was making a camp under a bridge and made a fire. We was finding some twigs and logs and sticks. and I went out and got some food and some drinks and stuff. The next morning I went looking for our bikes and we found a wanted poster. I said look out for a tall aboriginal with brades or cornrows and lip pearcing. wanted for jumping a police officer and stealing a police car. he is con cider dangerous so watch out. William Jack and Jakom had one to. so we was on the run and getting chase by the law. and out the same time we was still looking for the guys who stole our stuff. so I said for get about them guys we got to worry about our self's. now so try not to get caught now Isaid. so we got to keep running from them coppers. the one who I punch is trying to frame me for stilling he's car and jumping him in a ally. way so we got to try to get out off town so we can try and keep a low profile. so any idea were we can go. we cant go to Sydney or mt Druitt so we have to go to saint marry. I got a few people I know down that way. so we hop on a train and started to go. the next morning I went out to mete some one. and get some money because my key card got cut out. and if I use it they can track me down and find us. it was one off my old mates who I use to beat up when I use to go to school with. and I said sorry to him and then we was starting to be mates but it was an hand bush. he told me at the last second and he told me to run. so I started to run and then they all started to chase me. so i ran as fast as I could lukely I new all the back tracks me and my mates use to take. and led up to were we use to hang an hold tree house and. I and up losing

them. Lukely I just climb the tree and in the corner off my eye I just saw them and I hid a bit further in the tree house were my mates were. They said were was you and I said SHSHSHSH!!!!!!!!!!!!!! And I said sit down and shut up for a bit. we waited for an hour for us to cool down and they said why was you running I said it was an hand bush but he told me to run and said its an hand bush .

After I told them what happen we weren't trusting no one only serting people who we really know. So we had no money and we are wanted and we cant trust no one so we were walking in an ally way and some one try to jump me. My mates firght back but ther was about five big Samoan guys. so we all grab a big irone bars and bash them but I had a busted lip they had busted noses and teethnock out and they went a way. so we went to go to the shop to get some pain killers and some bandagers to rap up our sores. we got some disguise and so we can not get caught by the police. the guys don't get caught by the guys who stole our stuff as well so we are still in saint Mary's I went back to the park to collect that money from the guy. but he said they are still looking for u and them other boys who u was with. so collect the money from him and got something to eat for the boys like some hot chips and scallops and two bottles of drinks like coke and water and crème and soda. so I was walking back from the shops and the police came up to me and said have you seen these people around and they was me and William jack and jakom and I said narr I never seen them befor. and I went back to the hang out and I said the police came up to me and ask me if I saw these people before and I said no .and then I came back up here and told you so the police don't know who

we are .so we can go out in the streets now and get some more food and drinks. so we can go back to Dubbo so we was on the train and we was out Lithgow or we ad to do is catch a bus and then we was there we went back to our family. my mum and dad said were was you and I said I was sleeping at my mates for a couple of days and than I came back here .

I didn't wanted to tell them so I told a lie and than I went back to my mates and ask them what they said to there mum and dad. they all said they was sleeping at there mates house as well and I said the same thing to my mum and dad and they said really. and I said year and one of my mates said what if we get caught by the police and I said they wont find us now if they do we can run because there slow we can out run them easy by miles .

So we were in Dubbo for a week and the police found out were we was. and than I ran and got my mates and said lets go fast the police is out the back off my house. so I ran and my mum told me to run so I did. and I came here so were are we going to go and they said lets go to western Australia. so i said ok lets go but our are we geeting there and he said car and i said were are we going to get a car and then i forght of an idea and then I said wait here ill go and get my mum car and then they said how are you going to get the car and i said ill ask and leave a note there so i grab the car and drove back and we went to western australia. and went to my old girl friend .

So i was at my ex girl friends and then i ask if I can stay and she said no .she ask why and i said because i have no were else to go and she said you

got to come up with a better excuse than that and then the news came on and i said watch that on the news and she turn a round and saw all our faces on the tv and said wanted reward may consider very dangarous so if you saw please call tripple zero so we can arest them and then she let us in and said why are you on the run. and i said because i nock out a police ofercer and stole a car and asult some one who try to bash us that explain the scars she said. and i said of cause.

I ask if she can go to the shops and get us some drinks and some food and she said yer thanks its allright and I cant let you go any were you might get takeing a way again and i dont wont that do I now and i said of cause not and if police says have you seen these peoples you say no i havent sorry right and she said ok and i said you no what drinks to get and she said yes and then i said get some thing for you and she said yes and i said you better start moveing before it shuts now ok.

She came back with them. i said you want some and she said ok well help your self ok and she said yep and we was eating and the door bell rang and it was her boy friend . she said its just friends and he went to hit her and i stop him and he try to hit me so i punch him and i said lets go boys so we did and i said we might of well turn our self in we will only get six monthes so i went to the police staition and told every thing and the judge belive me and said youll only go for six monthes 3 for good behavior.

3 monthes later i came out and i saw the guys who took all my stuff and my 1000 doler bike and got it of him so in the end i got all my stuff the
