

## It was great fun until

It was great fun until I almost got killed by sharks and I got scared and went to hospital. The doctor said that I got bitten by a shark. My mum was worried about me she went to the beach and checked there. She went to the police station and ask them if they know where I am and they said no. She checked everywhere but she couldn't find me. So mum got scared and cried and cried. That night I was allowed to go home. I went home and saw my mum crying so I sat down and said I'm back. I told my mum why I wasn't here because I got bitten by a mother shark. My mum said I thought that someone took you away. I said to my mum if someone took me I will kick them and run away but that did not happen. I got bitten by a shark. I was in pain and the life guards came and called the ambulance. They said I got bitten on the right shoulder and the left leg. I was hurt badly on my toe and mum called the doctor and the doctor said that I broke my toe. I had to go to the hospital and I stayed there for 4 weeks. I had to get to get a needle. They said I was very sick and got a disease. They said that I had to take medicines everyday or I will get very sick and go to hospital again. But I took it every day and was allowed to go home in 3 days. I got better in 5 months. I was allowed to go and play and go to Luna park. I went on every ride. My favourite is the Ranga and the flying saucer it was a lot of fun. I went home but it was boring. I want to go there again I said I went there again the next year after it was even better I loved it I want to go there again. I went on the ferry boat and also went on a big boat ate dinner and I had a drink of Fanta and I loved. I just did not like the lasagne and chips. When I was done my Fanta there was a little chip it was for the machine. I gave it to my mum and she got a jackpot. We left the boat at night time. I love watching movies with my mum. I watch paranormal and screen 3.

The end
