

Winter

By Rainer Smith St

Andrews Public School

I know when winter is coming because the weather gets colder and the temperature goes down.

Most people know when winter's coming because people rug up with blankets and sit near a heater.

For a long time I have been dreaming of going to the snow to make snowmen and go skiing.

I know that some of my friends have been to Jindabyne.

In winter I like to watch movies with my family and I like playing soccer with my friends. Maybe one day I could go ice skating at the ice skating rink.
