

On a sunny and hot Sunday, Chloe went to the park with her friends Jessi, Kenzie and Mia. Jessi has blonde hair like Chloe and loves wearing makeup. Kenzie has blue eyes and long brown hair. Mia is small and likes skipping on grass. Chloe is the tallest out of all of them and she is eight.

Chloe's mum and dad were sitting on the seat beside the slide while the girls talked about what they were going to do first.

"I wanna go on the slide first" said Kenzie. "It is bright blue and that's my favourite colour!"

"I wanna go on the see-saw!" said Mia loudly.

"I wanna climb the rope to the top of that silver pole" Jessi said politely.

"Well, I'll decide where we're going first" Chloe said.

Kenzie went over to Chloe's mum and asked her to come and deal with the conversation. Chloe's mum said, "Guys, don't start fighting. You can all play on whatever you want."

Kenzie ran up to the bright blue slide and climbed up the steps as fast as she could. While the other girls were still deciding, she slid down the slide, zooming and flipped up into the sky. She landed on the see-saw and bounced up on a cloud in the sky. The cloud was big and fluffy. Kenzie felt a bit scared because it was so quiet.

Just then, an alien spaceship appeared beside her. It had a black and red vacuum that sucked Kenzie up! The aliens had three eyes and green slimy skin. Kenzie was more scared than before.

While Kenzie was in the spaceship, the girls looked around and couldn't see her.

"Where is Kenzie?" asked Chloe.

"She must be hiding" said Mia.

"Let's go and find her" said Jessi in a loud voice.

They started to look near the see-saw and they found an emu egg! It started wiggling, and shrigging around!

"What is that?" asked Jessi.

"I know" said Chloe, "I learnt about these eggs in science at school! It is an emu egg!"

The egg cracked opened really fast. A baby emu came out of the egg and put its beak in front of Chloe's face. She screamed out loud and started to run around. Mia told Chloe "It's alright! It won't bite because it is only a baby and doesn't have any teeth."

"Ok Mia" said Chloe breathing fast as she stopped running.

Jessi picked up the baby emu and took it to the shade. It was getting hot and she didn't want it to die.

Chloe said "Girl's, we forgot about Kenzie. Let's try and find her."

They headed towards the slide because that was Kenzie's most favourite colour. They walked up the steps and looked up when they got to the top.

It was the strangest thing! They saw an alien spaceship that was coming down towards them.

"LOOK AT THAT!" shouted everyone. They were excited because they had never seen a spaceship before. It came down near the baby emu and dropped Kenzie face first into the grass. The girls couldn't believe their eyes. It sucked up the baby emu and flew back up into space.

The girls slid down the slide, and ran over to Kenzie.

"Are you alright?" asked Jessi.

"We were looking for you" said Mia.

"We thought you were hiding" said Chloe.

"Well you wouldn't believe where I've been. It was the strangest thing. I thought it was an adventure" said Kenzie.

Chloe's mum and dad called the girls to the car so they could go home.

That was the end of the first adventure the girls had at the park.
