Green-Lang and Zing

I was going on a walk to the loneliest forest. On my way I saw something, it was the strangest thing I had ever seen. It was a small creature, its skin was green and its eyes were shaped like an oval and the colour of the eyes were green. Every feature of this creature was small and green. I headed deeper into the forest, and if you don't know why it's because I was taking this small and green creature to find its family. The first animal that I came across and asked if he had seen the creature's parents, was Logan the giraffe. Logan said "I have not seen the creature's parents but I have seen small green glowing footprints heading to the lake". I said my thanks and then I marched off to the lake.

At the lake I met not the creature's parent .1 but instead Stevin the monkey. Stevin said "I have not seen the creature's parents but I have seen some glowing green footprints heading into the water leaving behind some oranges"? I said "thanks" and I was off again. When I was in the water I did not see the creature's parents but I saw where the footprints stopped, and when I stopped I bumped into something. I couldn't see anything but to figure out what I had bumped into I put my hands in the spot where I had bumped myself and \*grab\* I pulled off an invisible sheet and there underneath, were the parents to the creature.. The creatures said "thankyou for looking after my precious Green-Lang". I said "so his name is Green-Lang"! "Oh yes indeed" said Green-Lang's parents. Green-Lang's parents then asked,

“oh by the way what’s your name” and I said  
“my name is zing”.

The end .2
