

## CRAZY COOKIE CAPER

Narooma Smash and Grab Shocks Town.

Things aren't always what they seem..... when two innocent looking people do something extraordinary.....

Sunday 6<sup>th</sup> May at 3pm a car was stolen from the Narooma Plaza car park. Eye witnesses told police that they saw an elderly woman with gingery curly hair use a large spanner to smash the side window of a car. Her accomplice a young teenager with long dark hair tied up in a bun then opened the vehicle and jumped into the driver's seat speeding off burning rubber and squealing tyres as they left.

Police said bystanders were shocked but then when they heard an enormous bang and glass smashing ran up to see what had happened. "They crashed the car right into Sugar Pie the cake shop and were laughing their heads off as they grabbed whatever they could from the shelves, fridges and the kitchen area " said Mr Dough, who was interviewed at the scene " I couldn't stop them I had bags of shopping, my arms were full". Mrs Tea from Sugar Pie estimates the takings at about \$300 worth of pastry and drinks and \$100 in cash." We had been in early that morning setting up for the week"

The escapees ran back out on to the highway where a car was waiting for them. A young girl with long straight hair was driving a white four wheel drive Jeep. No one could see the registration number as it was covered in mud. Police are asking anyone who knows or recognises the description of these culprits to call Narooma Police station. Detective Sargent Tray from the Crime Squad said " It could be as simple as checking work colleagues lunch boxes. If someone turns up with some delicious goodies they don't normally have please let us know "
