

## The Wild - Turtles and the Big Adventure

Deep down in the sea in a beautiful coral reef lived two little turtles. Mr and Mrs Turtle were out in the coral reef. Suddenly Mrs Turtle felt sick as they were on their way to the island where she was born.

Suddenly a diver swooped down so Mr and Mrs Turtle quickly tucked into their shell and gently sank to the bottom of the sea. So the diver dived down again and Mr and Mrs Turtle peeked out of their shell and the diver saw their eyes. They were small and he saw their mouth. It was like a beak. Then they hit the bottom and the diver picked up the two turtles and swam up out of the water.

He got into the speedboat and put the two little turtles in a lunch box. The two turtles tried to get out but they couldn't. So they rested for ten minutes. After a while the diver took the lid off the lunch box and put the turtles into a fish tank. Mr and Mrs Turtle searched for something to smash the tank. Suddenly Mrs Turtle thought they didn't need to smash it - they needed to leap out of the tank. So they did.

They landed on the slippery jetty and began to slide. Finally they were in the water again but there was still danger everywhere. They swam to the seabed. Something swooped. It swooped again and Mr Turtle saw that it was a giant squid. It chased them up and down.

They swam very fast and got to the island where Mrs Turtle was born, and at last she could lay her eggs in the sand.
